

# The Screen Object

[« Previous \(obj\\_navigator.asp\)](#)[Next Reference » \(obj\\_history.asp\)](#)

## Screen Object

The screen object contains information about the visitor's screen.

**Note:** There is no public standard that applies to the screen object, but all major browsers support it.

## Screen Object Properties

Property	Description
availHeight (prop_screen_availheight.asp)	Returns the height of the screen (excluding the Windows Taskbar)
